
Diplomirani inženir informatike in tehnologij komuniciranja (vs)/diplomirana inženirka informatike in tehnologij komuniciranja (vs)

Selected qualifications

Name of qualification	Diplomirani inženir informatike in tehnologij komuniciranja (vs)/diplomirana inženirka informatike in tehnologij komuniciranja (vs)
Translated title (no legal status)	Bachelor of Applied Science in Information and communication technology engineering
Type of qualification	Diploma prve stopnje (VS)
Category of qualification	Izobrazba
Type of education	Professional bachelor's education
Duration	3 years

Credits

180 credits

Admission requirements

- Matura or
- vocational matura, or
- school-leaving examination prior to 1 June 1995

ISCED field

Field
Informacijske in komunikacijske tehnologije (IKT)

ISCED subfield

subfield informacijske in komunikacijske tehnologije (ikt), podrobneje neopredeljeno

Qualification level

SQF 7
EQF 6
First level

Learning outcomes

The qualification holder masters:

- high-technology expertise for the planning, development and maintenance of information solutions and the management of communication technologies,
- organisational and business expertise and the effective use of technological solutions in practice, and
- personal skills of communication, management and team work.

A student is qualified to:

- understand the basic processes of the development of information systems, project management, and mastery of information and enterprise information systems,
- effectively use the most state-of-the-art information and communication technologies, and tools for developing information solutions,
- work with others, communicate on a personal and business level, and manage projects, and
- effectively apply knowledge to complete specific business tasks and achieve project objectives in a real environment.

Assessment and completion

Examination performance is scored as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5–1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

Students progress to the second year if they have accumulated at least 44 ECTS credits by completing first-year examinations. Students progress to the third year if they have completed all first-year examinations and accumulated at least 45 additional ECTS credits by completing second-year examinations.

Transitions

Second-cycle master's study programmes (SQF level 8)

Condition for obtaining certificate

Students must meet all requirements defined by the study programme, and thus accumulate 180 ECTS credits, to complete their studies.

Awarding body

University of Maribor, Faculty of Electrical Engineering and Computer Science
