Learning outcomes

The qualification holder is qualified to:

(general competences)

- master research methods, procedures and processes, develop critical and self-critical assessment,
- autonomously search for and obtain professional knowledge, and integrate new knowledge with existing knowledge,
- develop communication skills, in particular for communicating in the international and inter-cultural environments (in the native language, two foreign languages at an advanced level and in a third foreign language at an intermediate level),
- develop ethical reflection and commitment to professional ethics,
- develop cooperativeness and the ability to work in a group, including in the international and inter-cultural environments, and
- resolve specific work problems through the application of scientific methods and procedures.

(subject-specific competences)

- analyse, synthesise and anticipate solutions and the consequences of events in the tourism sector, marketing and inter-cultural communications,
- apply knowledge of tourism sciences, marketing and communication in practice,
- demonstrate knowledge of and understand the foundations and history of tourism, humanistic, sociological and commercial sciences,
- coherently master basic knowledge, link knowledge from various areas, and apply it in the domestic and international business environments,
- integrate and interpret fresh information in the context of the tourism profession,
- understand the basic structure of the fundamental discipline and the links between sub-disciplines,
- understand and apply critical analysis methods and development theories, and apply them in solving specific technical problems,
- apply knowledge in a specific vocational field, and
- use information and communication technologies and systems in the tourism sector.

Assessment and completion

Examination performance is scored as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum

criteria); 5–1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

Full-time students may progress to a higher year if they accumulate 45 credits (40 credits for part-time students) by the end of the current year, and meet all requirements for the previous year.

Transitions

Second-cycle master's study programmes (SQF level 8)

Condition for obtaining certificate

Students complete their studies when they have met all prescribed requirements of a study programme (i.e. positive scores in all subjects, seminar papers, successfully completed professional practice, and a crafted and successfully presented final project).
