Magister tolmačenja/magistrica tolmačenja	<input type="checkbox"/>
Pooblaščen inženir/pooblaščenica inženirka varnostnih sistemov	<input type="checkbox"/>
Compare Selected	Clear

Name of qualification	Doktor znanosti/doktorica znanosti s področja agrarne ekonomike
Translated title (no legal status)	Doctor of Philosophy in the field of agrarian economics
Type of qualification	Doktorat
Category of qualification	Izobrazba
Type of education	Doctoral education
Duration	3 years
Credits	180 credits

Admission requirements

- A second-cycle study programme or
- an academic (university) study programme adopted prior to 11 June 2004, or
- a professional higher education programme adopted prior to 11 June 2004 and a study programme to obtain a specialised qualification. Prior to enrolment in the study programme, such candidates must meet study requirements of 30 ECTS credits, which candidates obtain by completing the requirements in the following subjects from the first semester of the second-cycle master's programme Agrarian economics: Theoretical and empirical analysis in agrarian economics, Basics of research work in agricultural management, Economics and marketing in the agro-food sector, Organic farm management, Production systems and sustainable development or
- a study programme that leads to vocations governed by EU directives, or another non-structured master's degree programme assessed at 300 credits.

ISCED field

Field
Kmetijstvo, gozdarstvo, ribištvo in veterinarstvo

ISCED subfield

subfield interdisciplinarne izobraževalne aktivnosti/izidi, pretežno kmetijstvo, gozdarstvo, ribištvo in veterinarstvo

Qualification level

SQF 10
EQF 8
Third level

Learning outcomes

The qualification holder is able to:
(general competences)

- identify a given research problem, analyse it and possibly solve it,
- master standard methods, procedures and processes of research work on agrarian economics,
- apply acquired theoretical knowledge in practice,
- autonomy in research and technical work,
- show a commitment to professional ethics,

(subject-specific competences)

- solve specific research problems in various fields of agrarian economics as well as its related disciplines,
- develop skills in the application of knowledge in their specific research and work area of Agrarian Economics and related disciplines,
- continuously apply standard empirical research methods of agrarian economics and its related disciplines (econometric modelling, decision-making theory, empirical marketing research),
- formulate and implement original scientific solutions to given agrarian economics problems,
- present the scientific results obtained in the form of a publication in an international scientific periodical.

Assessment and completion

Examination performance is graded as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5-1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

To enrol in the second year students must complete 30 credits, and must pass the examination in the subject Methodology and ethics in scientific research work, and they must also start the process of registering their doctoral topic, meaning that the topic must be confirmed by the Scientific Research Committee at the faculty. To enrol in the third year the doctoral topic must be confirmed by the Scientific Research Committee at the University of Maribor.

Condition for obtaining certificate

Students complete their studies when they have completed all the obligations in the amount of at least 180 credits, and have successfully defended their doctoral thesis.

Awarding body

University of Maribor, Faculty of Agriculture and Biosystemic Studies
