EQF 8
Third level

Learning outcomes

The qualification holder is be able to:
(general competences)

- functionally apply the research methods pertaining to linguistics,
- demonstrate autonomy in research,
- keep abreast of and follow current theoretical and methodological research approaches,
- use and interpret relevant domestic (Slovene and Hungarian) and foreign specialist literature in the field of linguistics,
- formulate their own scholarly view of and reflection on the development of Hungarian language,
- apply systemic concepts in understanding and defining the problems of linguistic categories in practice,
- present scholarly findings in the form of monographs or research papers in domestic and international scholarly periodicals,

(subject-specific competences)

- demonstrate knowledge and understanding of the modern norms and rules of standard language,
- carry out autonomous linguistic analysis of various texts,
- demonstrate understanding of the cause-and-effect relationship between text type and typical linguistic phenomena at the level of derived lexicon, lexemic connections and idioms,
- critically assess and identify the positive and negative impacts of globalisation processes at all levels of the contemporary Hungarian language system,
- assess and contextualise new linguistic phenomena from the point of view of communicative adequacy and the new roles of the Hungarian language in modern integration processes,
- make functional use of various language manuals and compile such manuals autonomously,
- demonstrate knowledge of research fields in sociolinguistics and undertake in-depth study of the

selected field, for example varieties within the Hungarian language, National (contact) varieties of the Hungarian language, bilingualism and multilingualism, language policy, language contacts between Hungarian and Slovene, the language of young people, gender studies, applied sociolinguistics, etc.

- use and interpret relevant Hungarian and foreign study literature in the field of linguistics,
- formulate their own scholarly view of and reflection on the development of Hungarian language,
- adopt a problem-based approach to work and autonomously address the most difficult development issues facing the Hungarian language,
- record and express content in a technically appropriate manner, address specialist problems, prepare authoritative presentations of key findings and support them with arguments in a skilful manner,
- autonomously interpret a specific segment of the language, taking into account the most suitable theoretical and methodological approaches.

Assessment and completion

Examination performance is graded as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5–1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

In order to progress to the second year, students must have completed all course units from the first and second semesters, amounting to at least 30 credits per semester (60 credits in total). In order to progress to the third year, students must have completed all course units from the third and fourth semesters (30 credits each, for total of 60 credits).

Condition for obtaining certificate

In order to complete the programme, students must complete all course units, for a total of 180 credits (pass all examinations, complete all course units prescribed by the study programme and successfully defend a doctoral dissertation).
