# Doktor znanosti/doktorica znanosti s področja medicine - klinična usmeritev

---

## Selected qualifications

<b>Name of qualification</b>	Doktor znanosti/doktorica znanosti s področja medicine - klinična usmeritev
<b>Translated title (no legal status)</b>	Doctor of Philosophy in the field of medicine - clinical orientation
<b>Type of qualification</b>	Doktorat
<b>Category of qualification</b>	Izobrazba
<b>Type of education</b>	Doctoral education
<b>Duration</b>	3 years
<b>Credits</b>	180 credits

## Admission requirements

- A completed second-cycle study programme in the field of biomedicine, bioengineering or mathematics/natural sciences; or
- a completed study programme leading to a profession regulated by European Union directives (93/16/EEC for doctors, 78/1027/EEC for veterinarians, 78/687/EEC for dentists and 85/432/EEC for pharmacists) consisting of at least 300 credits; or
- a completed study programme leading to a specialisation and a previously completed professional higher education programme in the field of biomedicine, bioengineering or mathematics/natural sciences; additional course units for individual fields consisting of 30–60 credits are determined for candidates by the programme board for Biomedicine; or
- a completed study programme leading to a pre-Bologna research master's degree or specialisation following the completion of a study programme leading to an academic higher education qualification in the field of biomedicine, bioengineering or mathematics/natural sciences; course units totalling 60 credits will be recognised for candidates; or
- a completed programme leading to an academic higher education qualification, adopted before 11 June 2004, in related disciplines from the fields of biomedicine, bioengineering or mathematics/natural sciences.

## ISCED field

Field  
Naravoslovje, matematika in statistika

## ISCED subfield

subfield interdisciplinarne izobraževalne aktivnosti/izidi, pretežno naravoslovje, matematika in statistika

## Qualification level

SQF 10  
EQF 8  
Third level

## Learning outcomes

Qualification holders are qualified to:

- think scientifically,
- participate in the addressing of complex work problems using an interdisciplinary approach,
- carry out creative and independent research,
- address the scientific problems of future employers,
- demonstrate understanding and critical judgement in the addressing of difficult and complex research questions,
- address research problems in a creative and autonomous manner,
- critically assess research results,
- develop new research methods,
- transfer new technologies and knowledge into practice.

## Assessment and completion

Examination performance is graded as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5–1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

## Progression

In order to progress from the first year to the second year, doctoral candidates must have completed course units amounting to at least 45 credits. Of this, doctoral candidates must complete at least 20 credits from mandatory core courses. Candidates who have completed all taught course units from the first and second years may enrol in the third year.

## Condition for obtaining certificate

In order to complete the programme, candidates must successfully complete all course units defined by the programme and successfully defend a doctoral dissertation. Doctoral candidates must publish at least one scholarly article in the field of their doctorate in a journal indexed by the SCI or SSCI. The doctoral candidate must be the lead author of the article. The scholarly article must be published or accepted for publication before the defence of the doctoral dissertation.

## Awarding body

University of Ljubljana, Faculty of Bioengineering, Faculty of Pharmacy, Faculty of Chemistry and Chemical Technology, Faculty of Medicine, Veterinary Faculty; in cooperation with the Jožef Stefan Institute, the National Institute of Chemistry and the National Institute of Biology
