- calculate labour costs, keep accounting for fixed assets and conduct other bookkeeping tasks;
- carry out various methods and types of direct marketing, collect different market data and assess obtained results.

In addition, the holder of the certificate also upgraded his/her key professional skills and competences with key general knowledge and skills in line with national standards.

Assessment and completion

Students' vocational abilities and skills and the fulfilment of conditions to obtain credits in accordance with

the relevant education programme are established through verification and assessment. Assessment of students also takes into account non-formally acquired knowledge, which must be adequately demonstrated. Students are assessed using grades from 5 (excellent) to 1 (inadequate).

Transitions

Matura/vocational course, higher vocational education (SQF level 6), professional higher education (SQF level 7) and academic higher education (SQF level 7)

Condition for obtaining certificate

Students must successfully (i.e. with passing grades) complete all general education subjects, compulsory and elective vocational modules, and the open part of the curriculum. They must also complete extracurricular activities and on-the-job training and pass the vocational matura examination. A vocational matura comprises a compulsory section (written and oral examination in Slovene and the economy) and an elective section (written and oral foreign language or mathematics examination, and product/service and an oral presentation).

Awarding body

Vocational and technical secondary schools and adult education institutions.
