## Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found [here](#) .

## Assessment and completion

### VALIDATION

During the guidance process the candidate prepares a portfolio, which is assessed by a committee. If the portfolio submitted by the candidate contains authentic, valid and adequate proof of the knowledge, skills and competences defined in the occupational standard, the committee may:

- validate the contents of the occupational standard in full,
- validate the contents of the occupational standard in part and define the knowledge, skills and competence to be verified,

- refuse to validate any of the contents of the occupational standard because the candidate has not provided proof of any of the knowledge, skills and competences defined in the occupational standard, in which case it will verify the occupational standard in full.

#### METHOD OF VERIFICATION

- Practical verification with an oral presentation.
- 

The commission determines the practical task from the content of the professional task, which the candidate brings to the direct examination.

In a simulated situation, the candidate performs the instruction procedure according to the submitted professional task, which contains:

- a description of the procedure for carrying out the instruction for the transfer of the knowledge of drawing a bobbin pattern, which includes at least three different bobbin techniques, and
- description of the procedure for the implementation of the instruction for the transfer of knowledge drawing of the bobbin plan in the international color scale for the submitted sample. The described procedure should include:
  - the aim of the instruction, materials and tools, description of the process of knowledge transfer and
- description of the procedure for the implementation of the instruction for the transfer of bobbin knowledge, for bobbin arbitrarily selected lace from the collection folder, which includes at least three different bobbin techniques or elements. The described procedure includes:
  - objective of the instruction, materials and tools, description of the knowledge transfer process.

The guidelines for checking the professional assignment are in item 11 of this catalog.

## Condition for obtaining certificate

Candidates demonstrate attainment of the knowledge, skills and competences defined in the catalogue of standards of vocational knowledge and skills.
