- works with clients in defining and performing tasks related to the creation of websites,
- creates websites,
- drafts instructions for use of websites tailored to users, and
- maintains, refreshes and updates websites.

Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found [here](#) .

Assessment and completion

VALIDATION

During the counselling process, the candidate prepares a portfolio. The relevant committee assesses the portfolio and recognises the catalogue content in part or full. If the committee is unable to recognise all catalogue content, it assigns tasks to the candidate for verification.

VERIFICATION METHOD.

- Oral presentation and the editing of previously created dynamic websites (see admission requirements).
- Practical exercise with an oral presentation. In the practical exercise (selected by the committee), the candidate demonstrates mastery of tools used to create websites and mastery of work with existing websites (e.g. the assessment, improvement and/or inclusion of elements). A candidate may be exempted from the practical exercise at the committee's discretion.

Condition for obtaining certificate

A candidate demonstrates the attainment of the knowledge, skills and competences defined in the catalogue of standards of vocational knowledge and skills.

Awarding body

Providers of procedures for identifying and validating national vocational qualifications are entered in a register of providers maintained in the relevant collection of the National Reference Point for Occupational Qualifications. Providers include: vocational schools, companies, inter-company training centres, adult education centres, chambers of commerce, etc.
