

Magister kineziologije/magistrica kineziologije

Selected qualifications

Name of qualification	Magister kineziologije/magistrica kineziologije
Translated title (no legal status)	Master of Science in kinesiology
Type of qualification	Diploma druge stopnje
Category of qualification	Izobrazba
Type of education	Master's education
Duration	2 years
Credits	120 credits

Admission requirements

- A completed first-cycle study programme in a related field (sport, health); or
- a completed professional higher education programme under the previous system (programmes adopted before 11 June 2004) in a relevant field (sport, health); or
- a completed study programme in another field that is equivalent in duration and scope to the programme referred to in the first or second indent, if prior to enrolment the candidate has completed additional course units, the content and scope of which depend on the previously completed study programme; candidates shall be assigned a maximum of three subjects from the first-cycle (undergraduate) academic study programme in Applied Kinesiology.

ISCED field

Field
Naravoslovje, matematika in statistika

ISCED subfield

subfield interdisciplinarne izobraževalne aktivnosti/izidi, pretežno naravoslovje, matematika in statistika

Qualification level

SQF 8
EQF 7
Second level

Learning outcomes

The qualification holder will be able to:

- demonstrate understanding of the functioning of human cells, tissues, organs and organ systems in interaction with the living environment,
- seek out and interpret new facts and integrate them into the context of the programme,
- identify and study the consequences of human interaction with the environment and take preventive action to achieve sustainable development,
- develop strategies and programmes for the promotion of exercise/sport as a factor of quality of life,
- carry out autonomous and group professional work and research, at the national and international levels, in the field of kinesiology and related disciplines,
- critically and self-critically assess and produce independent texts (articles, papers, assessments, discussions etc.),
- critically verify information and anticipate solutions and consequences,
- apply theoretical and practical research methods, various procedures and technologies,
- show a commitment to ethics and a sense of professionalism,

Assessment and completion

Examination performance is graded as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum

criteria); 5–1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

Students may progress to the next year if they have completed at least 48 credits from the current year and all course units from the previous year.

Transitions

Third-cycle doctoral study programmes (SQF level 10)

Condition for obtaining certificate

In order to complete the programme, students must complete all course units prescribed by the study programme and subject syllabuses, and write and successfully defend a master's thesis. In this way students accumulate 120 credits.

Awarding body

University of Primorska, Faculty of Mathematics, Natural Sciences and Information Technologies
