Qualification level

SQF 8
EQF 7
Second level

Learning outcomes

The qualification holder will be able to:
(general competences)

- undertake autonomous learning and study,
- think analytically and synthetically, which is important for comprehension of written specialist texts in the mother tongue and the foreign language,
- demonstrate mastery of the research methods of translation studies,
- develop the principle of autonomy and interconnection in own professional work,
- envisage solutions, analyse and synthesise,
- participate constructively in teamwork and participate in work involving different teams, communicate and show responsibility,
- pursue lifelong learning,
- use information and communication technologies, carry out research,
- demonstrate a commitment to professional ethics,
- develop communication skills for tolerant and appropriate specialised discourse,

(subject-specific competences)

- find and use scholarly literature,
- independently organise and acquire knowledge,
- analyse, synthesise and anticipate solutions and consequences,
- autonomously evaluate and formulate complex specialist and scholarly knowledge,
- incorporate acquired knowledge in the resolution of problems, particularly those that arise in intercultural communication situations,
- demonstrate understanding of theoretical communication and translation studies models and

- address them using best-practice examples,
- demonstrate understanding of linguistic communication as a situationally, socially and culturally conditioned interactive activity,
 - integrate acquired knowledge with new knowledge and use it to address problems in new situations,
 - work independently and in a team, interact socially in order to address complex technical problems,
 - use successful communication strategies (written and oral expression) in the mother tongue and foreign languages,
 - communicate successfully in a technical register in a foreign language at an advanced level, both orally and in writing,
 - address problems in translation studies by comparing them to real-life requirements,
 - analyse different text styles to improve translation/interpreting processes,
 - raise awareness of and justify translation decisions both within and outside professional circles,
 - raise and consider ethical issues in translation/interpreting,
 - take into account rights and obligations in the implementation of a successful translation process from receipt of order to delivery of product/translation,
 - use basic and specialised language manuals,
 - translate/interpret general, literary and technical texts,
 - use interpreting techniques and the necessary technical equipment for this,
 - demonstrate sensitivity to culturally conditioned differences,
 - demonstrate a sense of cognitively and culturally acquired aesthetic and ethical values and plurality,
 - demonstrate understanding of the historically based complexity of individual social phenomena,
 - demonstrate familiarity with and understanding of interlingual or intercultural mediation,
 - undertake outline analysis and evaluation of individual segments of Slovene and foreign-language cultural history,
 - demonstrate technical and information literacy,
 - use information technology (demonstrate knowledge of methods and procedures for acquiring and processing linguistic information and other information necessary for the translation process from the internet),
 - design documents and websites,
 - design and process databases,
 - demonstrate proficiency in the use of translation tools.

Assessment and completion

Examination performance is graded as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5-1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

In order to progress to the second year, students must have completed first-year course units prescribed by the study programme for a total of 30 credits, including an examination in Slovene for Specific Purposes I.

Transitions

Third-cycle doctoral study programmes (SQF level 10)

Condition for obtaining certificate

In order to complete a two-subject study programme, students must complete all course units prescribed by the programme in both parts of the two-subject study programme for a total of at least 120 credits (60 credits in each part of the two-subject study programme). Students must write and defend a master's thesis in the context of a master's seminar, as specified by the curriculum.
