Learning outcomes

The qualification holder will be able to:
(general competences)

- analyse, synthesise and provide a prognosis of solutions and the consequences of phenomena in the field of the policy of an environmentally friendly organisation and technological solutions,
- perform critical and self-critical assessment,
- apply knowledge and skills in the field of sustainable development in practice,
- demonstrate autonomy in professional work and in making business and organisational decisions,
- demonstrate a cooperative approach to colleagues, work in a group (and in an international social environment) and patiently receive and incorporate creative criticism and comments,
- perform professional work autonomously,
- master communication skills,
- demonstrate a capacity for ethical reflection and a commitment to professional ethics,
- critically use obtained interdisciplinary theories and analysis of policies in practice.

(subject-specific competences)

- demonstrate familiarity with and critical understanding of the history and importance of sustainable development,
- resolve specific issues in the area of sustainable development through the application of scientific methods and procedures,
- understand the general construction and substance of social sciences, humanities and natural

sciences and the links between them,
- perform ethical and socially responsible designing, planning and evaluation of strategic development possibilities of organisations,
- study, generate, develop and introduce modern managerial and technological solutions through the application of scientific methods and procedures,
- successfully and effectively plan, organise, manage and supervise the operation of an organisation or field (process, subsystem) for which they are responsible.

Assessment and completion

Examination performance is graded as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5–1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

Students may progress to the next year if by the end of the academic year they have completed all requirements defined by the study programme for progression to the next year.

Transitions

Third-cycle doctoral study programmes (SQF level 10)

Condition for obtaining certificate

Students must meet all requirements defined by the study programme to complete their studies.

Awarding body

University of Primorska, Faculty of Management, Faculty of Humanities and Health School
