Learning outcomes

The qualification holders are able to perform scientific research work, plan and develop new ideas and the resulting solutions in academic practice in class teaching. Through the evaluation of their own practical work, graduates systematically enhance their knowledge from specific didactic subjects and in parallel ensure the systematic breakdown of practical problems, which they are capable of resolving as part of a team.

Assessment and completion

Examination performance is scored as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5-1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

Candidates may progress to the second year when they meet requirements totalling at least 45 ECTS credits, meaning all three prescribed, common compulsory subjects and three elective pedagogical-theoretical subjects. Candidates may substitute the three elective pedagogical-theoretical subjects with the public presentation of a seminar paper in the scope of an IRD seminar.

Transitions

Third-cycle doctoral study programmes (SQF, level 10)

Condition for obtaining certificate

Candidates complete their studies when they have completed all requirements defined by the study programme (i.e. have completed 120 credits) and successfully defended their master's thesis. Candidates complete their studies until 30.9.2016
