

Magister znanosti/magistrica znanosti s področja znanosti o okolju

Selected qualifications

Name of qualification

Magister znanosti/magistrica znanosti s področja znanosti o okolju

Translated title (no legal status)

Master of Philosophy in the field of environmental science

Type of qualification

Magisterij znanosti/umetnosti

Category of qualification

Izobrazba

Type of education

Master's education

Duration

2 years

Credits

120 credits

Admission requirements

- A completed academic programme in the field of natural sciences, engineering, bioengineering or medicine; or
- a completed professional programme in sanitary

ISCED field

Field
Naravoslovje, matematika in statistika

ISCED subfield

subfield okoljske znanosti

Qualification level

SQF 9
EQF 8
Third level

Learning outcomes

- Qualification holders have acquired in-depth knowledge in all important fields of environmental science such as water, soil and air pollution.
- They are able to use measuring techniques to identify and control pollution and manage waste and demonstrate knowledge of the consequences of the waste disposal.
- They are familiar with the chemical, physical and biological effects and health consequences of pollution and with the legal, economic and administrative aspects of environmental protection.
- They are also able to acquire knowledge from research methodology, address problems using scientific methods and express substantive and methodological expertise.

Assessment and completion

Examination performance is graded as follows: 10 (excellent); 9 (very good: above-average knowledge but with some mistakes); 8 (very good: solid results); 7 (good); 6 (adequate: knowledge satisfies minimum criteria); 5-1 (inadequate). In order to pass an examination, a candidate must achieve a grade between adequate (6) and excellent (10).

Progression

In order to enrol in the second year, candidates must have completed at least 15 ECTS credits from the first year, including Modern Directions in Environmental Science I (75% attendance) and at least 33% of the research requirement.

Transitions

Third-cycle doctoral study programmes (SQF, level 10)

Condition for obtaining certificate

In order to complete the programme, students must pass all examinations and complete all course units in all subjects of the curriculum, including elective subjects and research work, and successfully defend a master's thesis, for a total of at least 120 credits. Graduates of this programme must complete the programme by the 30.9.2016.

Awarding body

University of Nova Gorica, Graduate School
