Learning outcomes

Master craftsmen/craftswomen will be able to:

- organise and manage the work process;
- ensure the quality of products and services;
- prepare business plans and analyse the results of work;
- receive clients and provide advice;
- manage the procurement and sale of products and services;
- operate a business rationally and economically (staff, standards and calculation of services);
- draft proposals for the rewarding of co-workers and work to ensure a positive working environment;
- recruit staff and plan their development;
- implement environmental regulations and regulations on safety at work, fire safety and environmental protection;
- transfer knowledge, skills, experience and new developments in the profession to apprentices, students and co-workers;
- make products from the field of metallurgy and mechanical engineering to master craftsman standard.

Accessors

Members of examination boards for each examination unit separately. Appointed by the minister responsible for education. Appointment may be renewed every four years.

Assessment and completion

Candidates sit a master craftsman examination, which consists of four units:

- a practical unit,
- a specialised theoretical unit,
- a business management and economics unit, and
- a teaching/instruction unit.

Condition for obtaining certificate

In order to obtain the title of master craftsman, candidates must pass all examination units under the

individual parts of the master craftsman's examination.
