Learning outcomes

The holder of the certificate is qualified to:

- make masonry heaters, stone stoves and fireplaces;
- tile inner and outer floors, walls, columns and stairs with ceramic tiles;
- use characteristic stove fitting and ceramic products and binding materials;
- appropriately use tools for treating stove and ceramic products when making cuts, openings and profiles;
- rationally use material and energy and to read plans and transfer the dimensions and heights from the plan to the facility;
- use technical documentation to perform stove fitting work and tiling; comply with health, safety at work and environmental protection principles;
- perform maintenance and rehabilitation work on stove products and ceramic tiles.

Optional:

- correctly install hydro-insulation, thermal and sound insulation and to use appropriate materials.
- perform basic stonemasonry activities by hand.
- build using all the basic types of bricks and blocks.
- apply interior and exterior plasters by hand or with a machine.
- to perform transport by forklift.
- to implement basic painting techniques on walls and ceilings and to paint wooden and metallic products.

In addition, the holder of the certificate also upgraded his/her key professional skills and competences with key general knowledge and skills in line with national standards.

Assessment and completion

Students' vocational abilities and skills, and the fulfilment of conditions to obtain credits in accordance with the relevant education programme are established through verification and assessment. Assessment of students also takes into account non-formally acquired knowledge, which must be adequately demonstrated. Students are assessed using scores from 5 (excellent) to 1 (inadequate).

Progression

Students may progress to a higher year if at the end of the academic year they achieve a positive score in all general education subjects and technical modules for the year as set out in the school’s operational curriculum, and have completed all extracurricular activities and practical on-the-job training, or progress on the basis of a programme faculty decision.

Transitions

Secondary technical, vocational or vocational-technical education; master craftsman/foreman/shop manager examination (SQF level 5).

Condition for obtaining certificate

In order to complete the education and obtain the qualification, the student/apprentice must successfully pass with positive grades:

- general education subjects,
- mandatory professional modules,
- one of the optional professional modules,
- open part of the open curriculum.

In addition, he/she must complete:

- other forms of extracurricular activities (active citizenship and interest activities),
- obligations in practical training through work placement,
- intermediate test (applies to apprentice form of education and students with an individual learning contract in the school form of education),
- final exam.

The final exam includes:

- written and oral examination of Slovenian language,
- presenting and defending a service

Awarding body

Vocational and technical secondary schools and adult education institutions.
