Learning outcomes

Candidates will be able to:

- plan, prepare, carry out and check own work;
- make rational use of energy, material and time;
- protect health and the environment;
- establish a cooperative relationship with superiors and colleagues;
- carry out maintenance and servicing of machinery, equipment and devices;
- carry out repairs of machinery in the case of breakdown;
- test and control the operation of machinery, equipment and devices.

Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found [here](#).

Assessment and completion

VALIDATION

During the counselling process, the candidate prepares a portfolio. The relevant committee assesses the portfolio and validates catalogue content in part or full. If the committee is unable to recognise all catalogue content, it assigns tasks to the candidate for verification.

VERIFICATION METHOD

Candidates demonstrate their proficiency in maintenance of machinery via a practical assignment with oral presentation.

Condition for obtaining certificate

Candidates demonstrate attainment of the knowledge, skills and competences defined in the catalogue of standards of vocational knowledge and skills.

Awarding body

Providers of procedures for identifying and validating national vocational qualifications are entered in a register of providers maintained in the relevant database of the National Reference Point for Occupational Qualifications. Providers include: vocational schools, companies, inter-company training centres, adult

education centres, chambers of commerce, etc.
