Elective:

- demonstrate enterprise skills and successfully market products and services,
- use optical instruments correctly,
- clean and maintain simple optical instruments.

Certificate holders supplement their key vocational knowledge and abilities with key general knowledge in line with national standards.

## Assessment and completion

Students' vocational abilities and skills and the fulfilment of conditions to obtain credits in accordance with the education programme are established through testing and assessment. Assessment also takes into account non-formally acquired knowledge, which must be adequately demonstrated. Students are assessed using scores from 5 (excellent) to 1 (inadequate).

## Transitions

Matura/vocational course, higher vocational education (SQF level 6), professional higher education (SQF level 7) and academic higher education (SQF level 7)

## Condition for obtaining certificate

Students must successfully (i.e. with positive scores) complete general education subjects, compulsory and elective vocational modules, and the open part of the curriculum. They must also complete extracurricular activities, practical on-the-job training and a vocational matura.

The vocational matura comprises a compulsory section (written and oral examination in Slovene and optometry) and an elective section (written and oral examination in a foreign language or mathematics, and a service with an oral presentation).

## Awarding body

Vocational and technical secondary schools and adult education institutions.
