• protect the environment from the negative effects of materials and work resources.

Accessors

Verification and assessment are carried out by committees for the verification and validation of national vocational qualifications, appointed by the National Examination Centre (NEC). Committee members must be licensed by the National Examination Centre. Licences may be found here .

Assessment and completion

1.VALIDATION

During the guidance process the candidate prepares a portfolio, which is assessed by a committee. If the portfolio submitted by the candidate contains authentic, valid and adequate proof of the knowledge, skills and competences defined in the occupational standard, the committee may:

- validate the contents of the occupational standard in full,
- validate the contents of the occupational standard in part and define the knowledge, skills and competence to be verified,
- refuse to validate any of the contents of the occupational standard because the candidate has not provided proof of any of the knowledge, skills and competences defined in the occupational standard, in which case it will verify the occupational standard in full.

2.METHOD OF VERIFICATION

If the candidate proves at least 100 hours of work experience operating light mobile cranes (vehicles up to 3.5 tons and up to 7.5 tons, e.g. HIAB truck cranes) in the last 5 years, which the candidate proves with authentic documents (e.g. written confirmation of hours of work performed on the machine for an individual project, confirmed by the supervisor at the work site, and/or training certificates, which also describe and specify hours of practical training on the machine, etc.), an oral defense will be held.

B) Practical examination with defense.

Condition for obtaining certificate

The candidate demonstrates that he/she achieves the knowledge, skills and competencies specified in the catalogue of professional knowledge and skills standards.

Awarding body

Providers of procedures for identifying and validating NVQs are entered in a register of providers maintained in the collection of the national information centre for vocational qualifications. These are: vocational schools, businesses, B2B training centres, adult education centres and chambers of commerce.
