Dear Sir/Madam,

The Slovenian Qualification Framework is celebrating 10th anniversary! In the meantime we have realized core objectives deriving from the *EQF Recommendations* and achieved significant progress in implementing SQF at the national level.

Honoring this special occasion, the NCP SQF-EQF, which operates at the Institute of the Republic of Slovenia for Vocational Education and Training (CPI), is preparing an International Conference:

10 years of Slovenian Qualifications Framework,

14th September 2020

at the Congress centre Brdo, Predoslje 39, Kranj.

At the Final International Conference we want to present key activities, which have been carried out for the purposes of the SQF project in the past years, while at the same time highlighting the starting points for discussions on the role and meaning of the SQF in the future.

Highlights of the International Conference refer to:

- the process of implementation of SQF in the past 10 years,
- presentation of the first comprehensive evaluation of the impact of the SQF, which has been carried out in cooperation with CEDEFOP,
- innovations brought to users by updated SQF portal and SQF Register,
- presentation of the New Europass platform by European Commission, DG EMPL,
- presentation of a good practice example: Latvian Qualifications Database and Maltese Qualifications Framework.

The event is intended for all key foreign and national stakeholders with an active role in the implementation and application of the Slovenian Qualifications Framework in practice. The Final International Conference, which marks the 10th anniversary of the SQF, is an opportunity to shed light on the ventures and the path we will take in the future, together with representatives of the European Commission and foreign National Cooperation Points for the EQF.

The official invitation and a detailed conference program is available at the website www.nok.si/aktualno. The Conference Online Registration Form is open from 25th August onwards till 7th September 2020 (or until all seats are filled, the number of seats is limited). Registration fee is free of charge, for travel and accommodation costs are responsible National Coordination Points themselves.

Due to **COVID-19** the conference will be **live streamed**. Those, who will not be able to attend the event, may still follow live broadcast of the conference.

Kindly invited!

Urška Marentič
Head of NCP SQF-EQF

mag. Janez Damjan
